

GRAN TURISMO

JASMINE PATEL

CHARACTER DESCRIPTION

Main Character: Jann Mardenborough

Qualities:

- **Passionate:** Jann loves racing and spends hours playing *Gran Turismo*, dreaming of becoming a real racer.
- **Determined:** Despite being told that video games can't lead to real racing success, he works hard to prove otherwise.
- **Talented:** His skills in the game translate well to real-world racing, surprising many professional racers.
- **Brave:** Jann is willing to take risks and face challenges to achieve his dream, even when the odds are against him.
- **Inexperienced:** Although skilled, Jann has never raced professionally, making his journey more difficult as he has to learn quickly.

SITUATION

The Situation: Jann is given a chance to participate in professional racing after getting first place in the *Gran Turismo* video game. He faces the challenge of proving himself in a real-world racing competition.

What happened before: Jann was just a gamer with a dream of becoming a professional racer.

THE DECISION

The Decision: Jann has to decide whether to continue pursuing his risky dream of becoming a professional racer, which could have dangerous consequences, or to give up and stay safe.

Reason: Jann's decision to pursue his dream is ethical because it shows courage and determination to achieve his goals despite the risks.

CONSEQUENCES

Consequences:

Positive: Jann fulfills his dream and proves that gamers can be real racers. He can make his parents proud and prove to them that he could actually race and he wasn't just playing video games for nothing.

Negative: The risks involved in real racing could lead to injury or worse. He can pass away if anything is wrong with the race car. The car could blow up and then he might not be able to achieve his goal due to the bad injury.

WHAT WOULD HAVE I DONE?

If I were Jann, I would also pursue the dream because it's important to follow your passion and take chances to achieve your goals. I would pursue the opportunity because it's a once-in-a-lifetime chance to turn a passion into a career. Especially when it's your dream to race professionally. If I got an offer I would take that offer without hesitation. All the time it took to race I would do it and to prove to my parents i wasn't just playing video games 24/7 for nothing.
